Corporate Profile

FSL Projects Limited is a global Software Outsourcing and Offshore Development company providing specialized Product Development and Product Re-engineering services to enterprises all over the world.

Established in 1999 with its Development center is located in Hyderabad, India, FSL is a dedicated Software Outsourcing and Offshore Development firm providing Outsourced Product Development services to enterprises worldwide. Combining the benefits of Offshore Outsourcing with its recognized expertise in Product Development as well as Product Re-engineering, we deliver unmatched value.

FSL partners with its clients to deliver value, in terms of quality and cost. We endeavor to bring together the best management and technical professionals with the most excellent skill sets, expertise, qualification and experience. We work as a team, approximating a virtual extension to the client's development/maintenance support organization or product groups, thereby helping to bring cost economics to an optimal level and stabilize resource utilization.
